- Backend: Node.js
- Mobile Development: Android (Dart)
- Database: PostgreSQL

I solemnly declare that all the information is correct to the best of my knowledge and belief.

- Tools: Git | GitHub | VS Code

EXPERIENCE

Android Developer Intern – TenUp Software
Apr 2024 – Jun 2024

- Developed and enhanced Android application features using Java and XML
- Debugged applications and improved performance and stability
- Collaborated with team members to design and test mobile app components

PROJECTS

- **Blood Bank Management System**
  https://github.com/Saad2607/blood-bank-management-system
  - Developed a web-based system to manage donor records and blood inventory
  - Implemented CRUD operations for efficient data handling
  - Designed backend logic for storing and retrieving real-time data

- **E-Commerce Website**
  https://github.com/Saad2607/E-Commerce
  - Built a responsive e-commerce platform with product listing features
  - Developed user interface using HTML, CSS, and JavaScript
  - Implemented core functionalities for product display and navigation

- **Interior Designing Website**
  https://github.com/Saad2607/interior-designing
  - Designed a responsive website to showcase interior design layouts
  - Focused on modern UI/UX design and performance optimization
  - Ensured cross-device compatibility

ACHIEVEMENTS

- CVM Hackathon
- Toycathon
- BBIT Hackathon
- Tech Expo

HOBBIES

- Cricket
- Football
- Travelling
- Coding
